RESPONSE TO THE OFFICE ACTION MAILED JULY 14, 2004

Sir:

Responsive to the restriction requirement set forth in the Office Action mailed July 14, 2004, Applicants provisionally elect, with traverse, to prosecute the invention of Group I, *i.e.* claims 1-5 and 9.

Applicant's respectfully request reconsideration and modification of the restriction requirement. In particular, Applicants contend that the claims of Group I and Group II are not directed toward different inventions. Although the Office has grouped these claims under different sub-classes, it is not clear to the Applicants why this is the case. Applicants respectfully contend that the claims of Group I and Group II fall within the same class and subclass, and as such the necessary search would not be unduly burdensome.
